

My radio station Air 1 is one of the few stations that plays Christian music and ministers to those hurting in our communities with messages of Hope and encourages listeners to help others in need.

Without this station Christian radio would be severely limited to non-existent in many areas and with it would go most of the encouragement for altruism in communities.

Air 1 broadcasts testimonials of people in shelters who are making a difference in their lives and communities and encourages sponsorship of this program and others like it.
